

Dear Mr Carmichael,

I believe that the Royal Mail is a public service - it should not be privatised. Stamp prices are likely to go up, post offices will be under threat - and rural areas are likely to get a much worse service. Royal Mail is now showing a profit, there is no reason to privatise it. Polls show clearly that the vast majority of British people don't support selling off Royal Mail.

**Saving Royal Mail is important to me because:**
